

## CHAPTER 27

### LIBRARY AND INFORMATION SCIENCE

#### Doctoral Theses

364. ESMAT MOMENI  
**Information Management in Public Libraries of Tehran : A Study in the Changing Environment.**  
Supervisor : Dr. Paramjeet K. Walia  
Th 16712

#### *Abstract*

Studies the existing information management practices and problems in public libraries of Tehran in the changing environment. Public Libraries deal with the acquisition, organization and processing of information to meet the varied needs of the users especially in the changing Information Communication Technology (ICT) environment. It is imperative on the part of Public Libraries to provide the users with resources and services, which suit their needs. It is evident from the present study that majority of the facilities in the Public Libraries with the exception of few of them (ILL, online search services, and internet access services) are satisfactory. Public libraries under study are still providing traditional resources of information. This is because, setting-up of e-resources is an uphill task apart from the fact that it takes a lot of time. Due to the financial constraints, and scarcity of trained manpower, the use of resources and services of libraries can be optimized only if the users are aware of their existence, It is possible only when they are provided with the proper bibliographic mechanism and resource support in the light of modern technology. It becomes imperative that user education programs should be initiated to sustain their interest in keeping track of their required information for its timely application.

#### *Contents*

1. Introduction. 2. Review of literature. 3. Information management : An overview. 4. Growth and development of public libraries. 5. Public libraries in Iran. 6. Data analysis and interpretation. 7. Findings, suggestions and conclusions. Bibliography and Appendices.

365. NAGABHUSHANAM (V)  
**Analysis of Web-based Library Services in University Libraries in India.**  
 Supervisor : Dr. M. Madhusudhan  
Th 16710

*Abstract*

Analysis the web-based library services in select university libraries in India and find out the range of web-based library services, house keeping, user services offered and used by users via the library websites, and to know different problems faced by the users while using web-based library services and also to suggest the ways and means for effective use of web-based library services in university libraries in India.

*Contents*

1. Introduction. 2. Review of literature. 3. Brief profile of select university library websites. 4. Web-based library services. 5. Data analyses and interpretation. 6. Finding and conclusions.

366. ROY (Projes)  
**Study of Data Retrieval Techniques of Online Databases Available in Libraries of Central Universities in India.**  
 Supervisor : Dr. Shailendra Kumar  
Th 16711

*Abstract*

Examines the data retrieval techniques as offered and made available by database provides and users expectation and feedback on this issues. Identifies different accessibility features of the online databases. Describes different aspects of the feasibility of the sites of the online databases, browsing features of the online databases, different menu driven or command oriented retrieval techniques of an online databse. Evaluates the data retrieval techniques on the basis of the performance among the online databases and ranks online database on the basis of adoptability of data retrieval techniques.

*Contents*

1. Introduction. 2. Review of literature. 3. Introduction to online database available in Central Universities in India. 4. Data retrieval techniques on online databases. 5. Identification of

online databases in libraries of Central Universities. 6. Library perspectives of online databases. 7. Users perspectives of online databases. 8. Conclusions, findings and suggestions for further research. Bibliography and appendices.

## M.Phil Dissertations

367. AGGARWAL (Shalini)  
**Evaluation of Web-Based Online Public Access Catalogues of Indian Institute of Technology Libraries in India.**  
Supervisor : Dr. M. Madhusudhan
368. BHATNAGAR (Himani)  
**Marketing of Information Products and Services in Selected Libraries of Chandigarh Region : A Study.**  
Supervisor : Prof. S. P. Singh
369. ESTHER MOIRANGTHEM  
**Design and Development of Web-Enabled Online Directory of Library and Information Science Teacher in India.**  
Supervisor : Dr. K. P. Singh
370. GUPTA (Barkha)  
**Total Quality Management in Selected Engineering and Management College Libraries in National Capital Region of Delhi.**  
Supervisor : Dr. Shailendra Kumar
371. GUPTA (Monika)  
**Evaluation of Websites of Select National Libraries of the World.**  
Supervisor : Dr. Paramjeet K. Walia
372. MELODY ZENTHIAN NEIH HOIH  
**Academic Libraries in Delhi : An Evaluative Study of Their Growth Development and Services.**  
Supervisor : Dr. R. K. Bhatt
373. PALIWAL (Geeta)  
**Problems and Prospects of Library Automation in Select Central University Libraries in Delhi : A Comparative Study.**  
Supervisor : Dr. R. K. Bhatt

374. SAHNI (Surbhi)  
**Use of E-Resources in Madical Libraries of Chandigarh Region : A Study.**  
Supervisor : Prof. S. P. Singh
375. SINGH (Manisha)  
**Electronic Resources in Physics in Select Libraries in Delhi : A Study.**  
Supervisor : Dr. Sailender Kumar
376. VINEETA  
**Role of E-Learining in Modernisation of Library Services in Digital Era : A Study of Academic Libraries in Delhi.**  
Supervisor : Dr. R. K. Bhatt
