CHAPTER 27

LIBRARY AND INFORMATION SCIENCE

Doctoral Theses

319.   AGGARWAL (Shalini)
        Use and Evaluation of Web-Based Online Public Access Catalogues of University Libraries in Delhi
        Supervisor : Dr. M. Madhusudhan
        Th 22401

Contents

1. Introduction 2. Review of literature 3. Web-based online public access catalogues 4. Profile of the select Univeresity Libraries 5. Data analysis and interpretation 6 Findings, conlusion and suggestions. List of works Cited and appendices.

320.   MANPREET KAUR
        Use of Electronic Resources by Users in Select Libraries of management Institutions in National Capital Region.
        Supervisor : Prof. Paramjeet K. Walia
        Th 22554

Abstract

The present study was carried out with the objective of assessing availability and use of e-resources in the libraries of management institutions located in National Capital Region. The research method applied to carry out the study is survey method. The questionnaire method is used for data collection that is followed by interview and observation method for data validation and cross-verification. The findings of the study revealed that majority of management libraries needs to upgrade their e-resource collection particularly with regard to various specialisation of the field. The libraries also need to add various types of e-resources such as e-books, e-dissertations, e-reports, e-newspapers, e-magazines etc. It was revealed that the users were aware about various types of e-resources available in their respective libraries but variation among various categories of users were found when it comes to usage. The students need to be encouraged about using e-resources subscribed by their institutional libraries. The research work also highlighted that informal methods of learning skills to use e-resourses have received higher percentage scores compared to formal methods. Thus, the management institutes' libraries need to use more formal methods in order to make users aware about what is actually available in their libraries. With respect to use of searching techniques also it was found that users preferred to use information search through keywords instead of advance searching techniques. Again this fact indicated that users must be given proper training under Information literacy programme about using advance search strategies. Hence efforts must be made by the

libraries to enhance both their e-resource collection as well as ICT infrastructure to ensure optimum utilization of e-resources. The future of management libraries also greatly depend upon adopting more collaborative approaches via consortia and networks towards building and providing access to vast range of e-resources.

Contents

1. Introduction 2. Review of literature 3. Research methodology 4. Growth and development of management studies 5. Electronic resources : An Overview 6. Profile of the management Institutions and their libraries 7. Data analysis and interpretation 8. Findings, suggestions and conlusion. Appendices. Bibliography.

321. SINGH (Malkeet)
Awareness and Use of Web 2.0 Technologies in Indian Institute of Technology (IIT) and Indian Institute of Management (IIM) Libraries in India : A Study
Supervisor : Dr. K. P. Singh
Th 22402

Contents

1. Introduction 2. Review of related literature 3. Web 2.0 technologies : An overview 4. Evaluation of web 2.0 technologies in IIT and IIM Libraries and Librarians' viewpoints 5. Analysis and interpretations of research data 6. Findings, suggestions, areas of further research and conlusion. Appendices.

322. SINGH (Manisha)
Scientometric Study of Research Output in Physics in Select Institutions of Delhi
Supervisor : Dr. Shailendra Kumar
Th 22553

Contents

1. Introduction 2. Literature review 3. Structure and functions of citation index 4. Institutions growth and scientific productivity 5. Authorship and collaborative pattern 6. Highly productive authors 7. Content analysis 8. Citation analysis 9. Application of h and g indices 10. Findings, conclusions and suggestions for further research. Bibliography.

323. VINOD KUMAR
Role of libraries in Growth and Development of Tourism Sector in India : A Study.
Supervisor : Dr. Shailendra Kumar
Th 22403

Contents

1. Introduction 2. Literature review 3. Growth and development of tourism 4. Libraries and turism in India 5. Analytical study of tourism information users in India 6. Analytical study of tourism information providers 7. Web based information system in Indian tourism : A proposed model 8. Findings, conclusions and suggestions for further research. List of documents consulted and appendices.
